COACHING CENTER

YOUR KIDS **DESERVE**
THE BEST **EDUCATION**

WELCOME SPEECH

Dear All,

Greetings of the day.

We are glad to formally introduce ourselves as "Chanakya Coaching Centre. We are into the field of providing professional coaching and counseling to the pupils across various boards and standard to suffice their educational needs. We are in the service providing the aforesaid services since 2001

The core value imbibed in our DNA is teaching through innovative method making your learning experience a memorable one. Over here we are not only teaching you by conventional approach but also you are subjected to rigorous interactive session with our Audio-Visual aids. Elaborating the same, over here we are not just demonstrating the content via AV aids but also there is self-assessment test at end of each module which gives a deep insight to the pupil to introspect what they have learned.

Contrary to the established philosophy we not only provide the hard copied materials and assignments but also provide them with e-learning materials so as to create a keen sense of inquisitiveness which we consider is seed which will bear fruits of success. We welcome you to visit our institute to know the details because we live that "seeing is believing.

We are glad to let you know that we are in process of enrolling new pupils for the upcoming academic year.

Warm Regards,
Mehul K. Vyas

ADVANCED COACHING METHODOLOGY

Explanation by Audio-Visual concepts

The advanced teaching methodology is an appropriate mixture of traditional and modern teaching techniques. Explaining things in easier format is the mantra of the aforesaid technique. It has been statistically proven umpteen times that a child learns the concept very easily if audio and visual aids are being used to teach them. This concept is driven here but with a twist. Le. we over here are not just only displaying them a vivid variety of animation for demonstration but it is interactive software. Over here at the end of the sessions pupils are subjected to a test on the software which helps them to know the exact level up to which the concept has gone down with them. Also it has got distinct features to let pupil help in doing their SWOT analysis for the topic

E-Materials

Catching with the aforesaid idea we over here also believe in providing pupils not only with the conventional hard copy materials we do provide them with the e-materials to further enhance their learning experience.

Student's Progress Report

We have got our Mobile APP on which parents can log on and can check their update wards performances day by day and could send us an email

Monitoring on Lectures

Lectures are under observation through CCTV, so that we can monitoring on Students as well as faculty. Summing it up we can assure you best of our services for the betterment of your word.
